**X** [@helwan\\_mande](#)

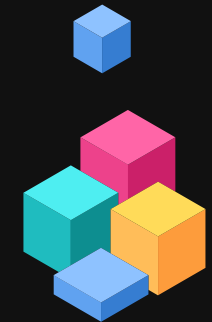

Full Stack Engineer,  
former Head of Network  
Expansion at Coreum.  
B.Eng in Software Engineering,  
decentralization geek

# COMPETITIVE ADVANTAGES

## Modular & Extensible

Our framework is designed for rapid expansion and iteration. It enables both our team and external developers to efficiently introduce new games, ensuring a continuous flow of fresh and engaging content.

## Accessibility

With a cross-platform approach—covering Telegram, web browsers, and native mobile apps—we make it easy for players to engage whenever and wherever they choose. By leveraging the Xion Network's reliable, user-friendly onboarding experience, we use gaming as a gateway to welcome new users into the broader Xion ecosystem.

## Experienced Team

Our team has a proven track record of delivering scalable, production-quality products. We've empowered over 100,000 users with the CosmoBear wallet ([https://t.me/CosmoBear\\_bot](https://t.me/CosmoBear_bot)) and earned first place in the Hackmos 2024 Mantra track, underscoring our commitment to innovation and excellence.

# UPCOMING PLANS

We aim to create a comprehensive, all-in-one solution that serves as the primary entry point for users to play, earn, stake, and trade—conveniently under one roof.

## ADD MORE GAMES

We are dedicated to enriching our game library to boost user engagement and retention, providing players with a diverse and immersive experience.

## ADD WALLET

We're developing a seamless, gasless self-custody wallet to offer users a comprehensive, hassle-free 360° gaming experience.

## ADD NEW ESCROW OPTIONS

Additional currencies, including Telegram Stars, will soon be available for users to wager across all games, enhancing accessibility and inclusivity.

## GO INTERCHAIN

Leveraging the Abstract SDK, we will extend our games across all Cosmos chains, delivering a truly interconnected gaming ecosystem.

## ENHANCE UI/UX AND BRANDING

Significant improvements in design and branding are underway to provide users with an intuitive, visually appealing, and cohesive experience.

THANK<sup>\*</sup>  
YOU
